

**August 2014**

**MADAME / SIR MUY IMPORTANTE NOTE ABOUT OUR GARBAGE SHED**

IB36 residents trashes Paper, Cardboard, Hard Plastic, Metal, Electronics and Batteries

Before doing so please make sure to choose the right container for your items

Please downsize your trash before dumping them into the containers

Please don't overfill the containers, they won't be emptied by the garbage collectors if you do

Food is a no go due to rats, extended cosmic activity and thereby high risk of horny aliens

Please no pizza cardboard, make them wet for easy folding, put them in a plastic bag, then drop them with your kitchen trash into the garbage chute inside the stairwell

Glas, flamingo and big items doesn't belong here. These objects you have to bring to the recycling station, nearest one is found on Herjedalgade 2-4, 2300 København S. Glas in bottle size can be dumped in containers right outside IRMA and NETTO

Please help us keep the shed clean and tidy at all times

Any item left here - that doesn't belong - is very costly for the owners of IB36.
